WE'RE GOING PLACES
UOW is one of the best modern universities in Australia. We connect over 30,000 students from more than 130 nations to learn and discover. We’re young, we’re smart and we work hard enough to be ranked in the top 2% of universities in the world. Join us and see how far you can go.

YOU'RE IN CONTROL
Take control of your life like never before at UOW. Choose your degree. Choose a major. Choose elective subjects, and make exactly the study program you want.

THE TIME OF YOUR LIFE
Study where the brightest people take the time to learn your name. You’ll be more than a number at UOW, and be taught by world famous educators, and researchers. Outside of class, you’ll be part of a campus culture defined by fun and friendship.

OUR GRADS GET JOBS
UOW graduates have the skills employers want. We’ve been rated in the top 100 in the world by employers for nearly a decade. You’ll learn how to learn, how to turn theory into practice, and how people with different skills work together.

BE SOMEONE YOU’RE PROUD OF
Challenge yourself and come out on top at UOW. Tackle big ideas in your degree, push yourself and travel the world on international exchange, bring your learning to life with a UOWx program such as mentoring local students.

STUDY AT ONE OF THE WORLD’S BEST UNIVERSITIES

Our degrees provide students with authentic learning experiences, preparing them to work with young children, parents, families, communities and other professionals in a range of educational settings.

1. EARLY START
The new Early Start facility will connect UOW’s regional campuses with early childhood education and care services across NSW. Distinguished academics from Australia and overseas, with a focus on the earliest years of life, collaborate within the Early Start initiative to enrich teaching, learning and research. Within the Early Start facility is the Early Start Discovery Space - an exciting new destination for toddlers and children (aged up to 12) and their families. The Discovery Space is like nothing else you’ve seen before, offering interactive playful experiences to inspire imagination and ignite a love of learning. Come on an adventure where together children and adults explore, discover and create. You might just be amazed.

2. HIGH QUALITY RESEARCH & TEACHING
UOW academics in the School of Education are expert researchers and quality educators which allows you to grow your passion and motivation for teaching while ensuring you are ready for a contemporary career. Our academics are at the forefront of their specialisations - they are passionate about teaching and learning, published authors, and accredited professionals.

3. REAL WORLD EXPERIENCE
Learn by doing and gain global connections! You will have opportunities for local, rural and international professional experiences where you to learn by observation and apply your skills in real world education contexts. You can also study overseas with UOW’s international exchange program, study abroad partners, and Education’s international cultural immersion programs.

4. MENTORING & SUPPORT TOWARD CAREER READY GRADUATES
We have support programs and people to enable you to successfully complete your degree. We can help build connections with peers, academic staff and professional educators to prepare you for your future career. This includes community outreach coordinators and careers consultants, who provide targeted services (specifically to the education sector) and support to increase employability and graduate satisfaction.

5. MODERN FACILITIES
You will work with the latest technology so that you are well prepared for when you enter the workforce. Facilities include our own Curriculum Resource Library and classrooms equipped with interactive whiteboards. You will gain access to the latest research in teacher education and practice through the extensive resources available at the UOW library.

EDUCATION | 1

The Bachelor of Education – The Early Years is an exciting and innovative approach to professional preparation of teacher qualified professionals in the Early Childhood Education and Care sector. It recognises the increasingly expanding and rewarding role of the Early Education Teacher. It also recognises the significance of enriched educational opportunities and experiences for all children in the early years necessary to ensure their present and future health, development and wellbeing.

It focuses on extending and enriching young children’s learning from birth through to five years and transition to school, providing children with opportunities to maximise their potential and develop a foundation for future success in learning.

In this degree you will focus on the development of very young children being connected to family, community, culture and place. You will learn about:
- child development,
- improving educational and developmental outcomes for children,
- contemporary theories and approaches to curriculum development and implementation,
- establishing respectful and caring relationships with children and their families,
- cultural and social diversity,
- developing partnerships with additional services,
- early intervention and transition to school,
- leadership and advocacy, as well as
- creating physical and social learning environments designed to deliver a holistic approach to children’s learning.

**PROGRAM STRUCTURE**

This degree combines university and professional experience throughout the course, with some subjects offered face-to-face on campus and others using a flexible and blended mode of delivery, including online learning.

**PROFESSIONAL PARTNERS IN PRACTICE (PPP)**

You will be part of the Professional Partners in Practice (PPP) program for the duration of your degree where you are paired with an early childhood education and care centre for a continuous professional mentoring program throughout your entire degree, giving you invaluable industry experience and professional connections, and enhancing employment pathways. In fourth year you will work with your experienced mentor on a substantial year-long project.

**PROFESSIONAL EXPERIENCE (PEX)**

You will ‘learn by doing’ in the Professional Experience Program where you spend up to 16 weeks teaching in early childhood education and care centres, which will span across the length of your degree.

**DEAN’S SCHOLAR**

The Bachelor of Education - The Early Years (Dean’s Scholar) is a program for high-achieving students who wish to continue their studies through honours and research degrees. As a Dean’s Scholar you will make a scholarly contribution to your field of study and to UOW. You will have access to an academic mentor, extended library privileges, invitations to attend School workshops and seminars, and networking events. There is also the opportunity for casual employment in the UOW Faculty of Social Sciences, community research, or projects supervised by leading practitioners or scholars for 15 hours per year.

**HONOURS PROGRAM**

You can apply for the Honours program, which is an embedded fourth year involving a research project under academic supervision. Entry to honours is based on application and merit.

**CAREER OPPORTUNITIES**

There are high employment opportunities for Early Years graduates, and varied employment options. You can choose to be an Early Education teacher or Centre Director in early childhood education and care centres. You can also choose a career in educational policy, non-government organisations, training and development.

You can work in specialist children’s programs including disability and early intervention, and broader child and family services in quality education and care in Commonwealth, State and Local government programs responsible for supporting children and their families with complex needs.

The career of an Early Education Teacher is full of many responsibilities, roles and challenges, and like most worthwhile endeavours it is often demanding, exciting and rewarding.

**INTERNATIONAL OPPORTUNITIES**

You will have opportunities to participate in student exchange and study abroad programs, international cultural immersion programs and participation in University hosted international early childhood teacher education programs.

**ACCREDITATION**

The Bachelor of Education – The Early Years is accredited through the Australian Children’s Education & Care Quality Authority (ACECQA). This is an approved early childhood teaching qualification for the purpose of the Education and Care Services National Law and Regulations.

**I gained so much through these practical experiences and casual work in Early Childhood Education and Care centres, because although I had experience working in the sector before beginning my degree, you learn so much from other people and other centres.**

**DOLORES FITZPATRICK**

Bachelor of Education – The Early Years
Illawarra Area Child Care Community Scholarship Recipient
WORKING WITH CHILDREN CLEARANCE PROCEDURES

New students enrolling will be required to complete the new online Working with Children Check at www.newcheck.kids.nsw.gov.au and clearance must be obtained prior to attending Professional Experience.

As of 2016 any student wishing to enter into a Bachelor of Primary Education must receive 3 Band 5s in their HSC results, and one of those Band 5s MUST be in English (Advanced or Standard). N.B. this rule does not apply to Early Years or Secondary Education.

Primary teaching is a rewarding profession that can change lives. The Bachelor of Primary Education is a 4 year accredited qualification preparing graduates for the rewarding role of being a primary school educator. A primary school teacher educates children from Kindergarten to Year 6 (ages 5 to 12 years) and teaches all areas of the Australian primary curriculum. UOW Bachelor of Primary Education graduates focus on educating the ‘whole child’ and promote lifelong learning in children.

The degree aims to develop reflective, professional teachers, acknowledging the role of the teacher in the community, the demands of emerging technologies and the increasingly diverse classroom environment.

In addition to studying the subjects in the Australian curriculum, you will focus on educational foundation subjects including Professional Studies, Teaching Gifted Learners, Aboriginal Education, Learners with Exceptional Needs, Educational Research, and Teaching Linguistically and Culturally Diverse Students.

PROFESSIONAL EXPERIENCE (PEX)

You will ‘learn by doing’ in the Professional Experience Program which will occur each year of the Bachelor of Primary Education degree at UOW, with the first in-school placement commencing in the first session of the degree. Through your involvement in both teaching within the classroom and in whole school activities you will have the opportunity to experience the ‘life of a primary school teacher’. You can undertake professional experience in local schools throughout the course, and can also apply for ‘out-of-area’ or rural professional experiences.

DEAN’S SCHOLAR

The Bachelor Primary Education (Dean’s Scholar) is a program for high-achieving students who wish to continue their studies through honours and research degrees. As a Dean’s Scholar you will make a scholarly contribution to your field of study and to UOW. You will have access to an academic mentor, extended library privileges, invitations to attend School workshops and seminars, and networking events. There is also the opportunity for casual employment in the UOW Faculty of Social Sciences, community research, or projects supervised by leading practitioners or scholars for 15 hours per year.

HONOURS PROGRAM

You can apply for the Honours program, which is an embedded fourth year involving a research project under academic supervision. Entry to honours is based on application and merit.

INTERNATIONAL OPPORTUNITIES

You will have the opportunity for international professional experiences, and to study overseas with UOW’s international exchange and study abroad partners, and international cultural immersion programs.

ACCREDITATION

This degree is accredited by the Board of Studies Teaching and Educational Standards (BOSTES) and is recognised as a professional teaching qualification in other jurisdictions nationally and internationally. Students seeking work outside Australia are advised to check with potential employers and other teacher registration authorities for local requirement.

“It is true that employers recognise the high expectations UOW places on its students. My experiences from studying at UOW have moulded the person and teacher that I have become today. Studying at UOW provided me with the opportunities to extend my horizons, to meet new inspiring people, explore innovative ideas and develop a love and passion for teaching. As a graduate, I am now equipped with the skills, connections, relationships and experiences to educate the children of the future. My success, love for teaching and education would not have transpired without UOW’s Bachelor of Primary Education.”

LAURA DOUGLAS
Bachelor of Primary Education (Class Honours)
Bachelor of Mathematics Education

This degree focuses on developing mathematical knowledge and professional teaching skills and will prepare you for work as a high school Mathematics teacher. Mathematics is a discipline central to many branches of science and commerce. Given its wide variety of applications, teaching the next generation of mathematicians requires specific skills. UOW Mathematics Education involves both learning mathematics but more importantly how to teach it effectively. There is also an opportunity to complete a Mathematics major as part of this degree.

During this four-year degree you will study a combination of maths and education subjects, allowing you to practically apply both disciplines throughout your degree. Mathematics subjects including calculus, algebra, statistics and mathematical modelling are complemented with education subjects about teaching and learning including learning and development, pedagogy (the method and practice of teaching), professional teaching skills, curriculum studies and meeting learners’ needs.

SCHOLARSHIP
Each year, UOW offers five Mathematics Secondary Education Scholarships valued at $1,500 p.a. to students starting this degree with an ATAR above 80 and Band 5 in Advanced Mathematics or equivalent.

PROGRAM STRUCTURE
Your program of study will include mathematical content areas of calculus, algebra, statistics and mathematical modelling. This course also includes content related to teaching and learning strategies and allows for the practical application of these disciplines throughout your degree.

PROFESSIONAL EXPERIENCE (PEX)
You will ‘learn by doing’ in the Professional Experience Program. You will have a wide range of teaching experiences in a school environment throughout your degree. This allows you to experience life as a teacher in school and classroom settings, and apply the skills you learn in a real world setting. You can undertake professional experience at a range of different schools throughout your degree and can also apply for ‘out-of-area’ professional experiences (e.g. in rural NSW).

DEAN’S SCHOLAR
The Bachelor of Mathematics Education (Dean’s Scholar) is a program for high-achieving students who wish to extend their studies through research projects. As a Dean’s Scholar you will make a scholarly contribution to your field of study and to UOW. You will have access to an academic mentor, extended library privileges, invitations to attend School workshops and seminars, and networking events. There is also the opportunity for casual employment in the UOW Faculty of Social Sciences, community research, or projects supervised by leading practitioners or scholars for 15 hours per year.

INTERNATIONAL OPPORTUNITIES
The degree will allow you the opportunity for international professional experiences, and to study overseas through UOW’s International Exchange and Study Abroad partners, and international cultural immersion programs.

ACCREDITATION
This degree is accredited by the Board of Studies Teaching and Educational Standards (BOSTES) and is recognised as a professional teaching qualification in other jurisdictions both nationally and internationally. Students seeking work outside Australia are advised to check with potential employers and other teacher registration authorities for local requirements.

“I’ve always been really good at maths but never really considered teaching as a career path until Year 11 when I helped some of my classmates and found I really enjoyed it.”

“Studying at UOW was always my goal. Over the years I’ve considered other universities, but none of them have the range of facilities that UOW does. It also has a great reputation, which will open up more career opportunities for me.

“My Mathematics Education degree is something I will be able to take everywhere. At the moment, my ideal job would be working as a maths teacher at a boarding school in England.”

2 units of a Science is essential, highly recommended band 5 or 6 in a Science.

This degree qualifies you as a secondary Science teacher in the disciplines of Biology, Chemistry, Earth and Environmental Science and / or Physics. Science Education at UOW involves learning science and how to teach it effectively. As a science teacher you will teach the structure and behaviour of both the physical and natural world through observation and experiment. UOW Science teachers have practical teaching skills and a high-level knowledge of science.

During this four-year degree you will study a combination of science and education subjects allowing you to practically apply both disciplines throughout your degree. Science subjects including biology, chemistry, earth and environmental science, and physics are complemented with education subjects about teaching and learning including learning and development, pedagogy (the method and practice of teaching), professional teaching skills, curriculum studies and meeting learners’ needs.

SCHOLARSHIP

UOW offers five Science Secondary Education Scholarships valued at $1,500 p.a. to students starting this degree with an ATAR above 80 and Band 5 in at least one science subject.

PROGRAM STRUCTURE

Your program of study will include studying one subject in all of the four science areas, with you your choice of specialising in two areas of science. This course also includes content related to teaching and learning strategies and allows for the practical application of those disciplines throughout your degree.

PROFESSIONAL EXPERIENCE (PEX)

Professional Experience is a compulsory component embedded in our teacher education courses. Therefore it is an expectation that students who participate in these courses are capable of meeting the demands of navigating their own way to and from Professional Experience placement. You will ‘learn by doing’ in the Professional Experience Program. You will have a wide range of teaching experiences in a school environment throughout your degree. This allows you to experience life as a teacher in school and classroom settings, and apply the skills you learn in a real world setting. You can undertake professional experience at a range of different schools throughout your degree and can also apply for ‘out-of-area’ professional experiences (e.g. in rural NSW).

DEAN’S SCHOLAR

The Bachelor of Science Education (Dean’s Scholar) is a program for high-achieving students who wish to extend their studies through research projects. As a Dean’s Scholar you will make a scholarly contribution to your field of study and to UOW. You will have access to an academic mentor, extended library privileges, invitations to attend School workshops and seminars, and networking events. There is also the opportunity for casual employment in the UOW Faculty of Social Sciences, community research, or projects supervised by leading practitioners or scholars for 15 hours per year.

INTERNATIONAL OPPORTUNITIES

The degree will allow you the opportunity for international professional experiences, and to study overseas through UOW’s International Exchange and Study Abroad partners, and international cultural immersion programs.

ACCREDITATION

This degree is accredited by the Board of Studies Teaching and Educational Standards (BOSTES) and is recognised as a professional teaching qualification in other jurisdictions both nationally and internationally. Students seeking work outside Australia are advised to check with potential employers and other teacher registration authorities for local requirement.
Bachelor of Health and Physical Education

**ATAR** 75 / 90 (DS)

**DURATION** 4 years

**STARTS** Autumn (February)

**UAC** 755101 / 755201 (DS)

**CRICOS** 062239G / 081891M (DS)

2 units of PDHPE is essential; 2 units of another Science is recommended

This degree provides academic and professional preparation for employment, both nationally and internationally, as a Health and Physical Education teacher.

Health and Physical Education teachers promote involvement and understanding in a range of movement areas including games and sports, dance, gymnastics, aquatics and athletics. They also promote the value of a healthy lifestyle, developing skills for lifelong movement, examining healthy behaviours associated with drugs, good nutrition, self-esteem development, knowledge about sexual health and interpersonal skills.

You will study a range of health and physical education subjects including games and sports, rhythmic movements, mental and sexual health, relationships, curriculum and pedagogy (the method and practice of teaching), anatomy and physiology, biomechanics, educational foundations and movement skills. You will also study broader complementary subjects including Aboriginal Education, Information and Communication Technology, Learners with Exceptional Needs, Educational Research, Communication, and Risk and Behaviour Management.

Graduates of the degree can be employed in both Primary and Secondary educational settings and will develop a range of skills valuable in other health and physical education sectors. UOW is a leader in this field and this degree reflects the growing importance, and potential, of physical and health education in today’s society.

**PROGRAM STRUCTURE**

The degree combines university and classroom experience throughout the course, using on-campus, online learning, and school and community settings.

**PROFESSIONAL EXPERIENCE (PEX)**

You will 'learn by doing' in the Professional Experience Program. You will have a wide range of teaching experiences in a school environment throughout your degree. This allows you to experience life as a teacher in school and classroom settings, and apply the skills you learn in a real world setting. You can undertake professional experience at a range of different schools throughout your degree and can also apply for 'out-of-area' professional experiences (e.g. in rural NSW).

**DEAN’S SCHOLAR**

The Bachelor of Health and Physical Education (Dean’s Scholar) is a program for high-achieving students who wish to continue their studies through honours and research degrees. As a Dean’s Scholar you will make a scholarly contribution to your field of study and to UOW. You will have access to an academic mentor, extended library privileges, invitations to attend School workshops and seminars, and networking events. There is also the opportunity for casual employment in the UOW Faculty of Social Sciences, community research, or projects supervised by leading practitioners or scholars for 15 hours per year.

**HONOURS PROGRAM**

You can apply for the Honours program, which allows a student to be involved in a research project of interest under academic supervision. Entry to honours is based on application and merit.

**INTERNATIONAL OPPORTUNITIES**

The degree will allow you the opportunity for international professional experiences, and to study overseas through UOW’s International Exchange and Study Abroad partners, and international cultural immersion programs.

**ACCREDITATION**

This degree is accredited by the Board of Studies Teaching and Educational Standards (BOSTES) and is recognised as a professional teaching qualification in other jurisdictions nationally and internationally. Students seeking work outside Australia are advised to check with potential employers and other teacher registration authorities for local requirement.

---

**Quote:**

The practicals were arguably the most important part of my degree. Having four different practicals across four years meant there was a consistent and conscious effort to improve my teaching and prepare me for the ‘real world’. The support I received from both my supervising teachers and my lecturers/tutors in regards to my practicals was amazing and ensured I was always learning and developing.

I have been at Deniliquin High School for almost a year now and it is a fantastic school. It is in a small country town with around 8,000 people and, like UOW, it has a real sense of warmth and community.

**Josh Peruzzolo**

Bachelor of Physical and Health Education, 2013

PDHPE Teacher/Boys’ Advisor, Deniliquin High School
The Master of Teaching (Primary) is for bachelor graduates from non-teaching courses who want to become primary school teachers (Kindergarten to year 6). On completion of this degree, you will obtain formal qualifications making you eligible to teach 5-12 year old children in public and private schools.

The Master of Teaching (Primary) produces quality teachers with an understanding of diversity in the classroom and strong connections to school communities. This program focuses on building teaching skills through a professional experience immersion program in your very first session, and regular professional experience periods throughout the degree.

**PROGRAM STRUCTURE**

In this degree you will build your professional skills in the key learning areas for primary school: literacy, numeracy, science and technology, creative arts, health and physical education, and history and geography.

Your learning will be supported by online teaching, forums, podcasts and video streamed lectures, on-campus tutorials and in-school activities. You will benefit from quality training with local teachers and a range of workshops to enhance your skills in Information Technology (IT), communication, working with parents, designing assessment tasks and conducting school-based research.

**PROFESSIONAL EXPERIENCE (PEX)**

You will ‘learn by doing’ in the Professional Experience Program where you will do 70 days of professional experience throughout your degree, which allows you to learn by observation, experience life as a teacher in school and classroom settings and apply your skills in the classroom.

You can undertake professional experience in local schools throughout the course, and you can apply for ‘out-of-area’ professional experiences (e.g. in rural NSW).

**INTERNATIONAL OPPORTUNITIES**

You will have the opportunity for international professional experiences.

**ACCREDITATION**

The Master of Teaching (Primary) is accredited with the Board of Studies Teaching and Educational Standards (BOSTES) as a primary-level teaching qualification in NSW and across Australia. Students seeking work internationally or with some private schools (such as Catholic schools) are advised to check with potential employers for local requirements.
SCHOLARSHIPS

There are several scholarship opportunities for Education students, including:

SDN PHILIPS SCHOLARSHIP
SDN Children’s Services is a not-for-profit organisation that has been providing high quality early education and care since 1905 and has a long history of supporting the education and training of early childhood educators. This scholarship is offered to third-year Bachelor of Education – The Early Years students.

BIG FAT SMILE COMMUNITY SCHOLARSHIP
Big Fat Smile is a not-for-profit community organisation, providing affordable, quality Early Childhood Education and Care services to children and their families. Big Fat Smile is offering a community scholarship to final year students studying The Early Years.

HAZEL HOLMWOOD SCHOLARSHIP FOR EXCELLENCE AND LEADERSHIP IN QUALITY TEACHING
This scholarship rewards and encourages students with a demonstrated commitment to excellence in practice and leadership through quality teaching. This scholarship is offered to Bachelor of Primary Education students who are in their third year of study.

OTHER DEGREES YOU MAY LIKE

This booklet is just a sample of the degrees on offer at UOW. Here are a few more from different study areas that may interest you.

Bachelor of Exercise Science
Exercise scientists design, implement and evaluate exercise and physical activity for healthy people. They provide programs for improving general health, preventing chronic diseases, and enhancing sports performance. You will gain an understanding of the anatomical and physiological basis of human motion and the effect of exercise, injury, and disease on human performance in sport, industry and in daily living.

Bachelor of Arts
Studying Arts at UOW allows you to tailor a degree specifically to your interests. Our flexible options let you choose the direction your program takes, such as specialising in a political, historical, international or creative discipline. The degree is made up of subjects with origins in the humanities: history, literature, languages and philosophy—and the disciplines of social sciences: cultural studies, sociology and politics.

Bachelor of International Studies
The Bachelor of International Studies examines the relationships of politics, society, culture, language, and history in a range of countries. You will analyse national and global issues, focusing on the way global forces and interactions increasingly influence domestic politics. As part of the degree, you will study a language minor and be encouraged to study abroad or undertake a study tour.

GRADUATE OUTCOMES

As a graduate from the School of Education you will:

• have a sound educational knowledge and understanding of the teaching profession at a state, national and international level.
• engage with new ideas and seek to extend knowledge through research and analysis.
• take on challenges and opportunities by applying logic, innovation and a flexible approach.
• be collaborative and able to articulate ideas using different media.
• have ability and propensity to act responsibly and empathetically in school and community contexts.
